MASTER THESIS ASSESSMENT

Title: Comparison of Recent Financial Crisis in the United States of America and China

Student: Bc. Luomai Wang
Supervisor: Ing. Kateřina Kořená, Ph.D.

1. Subject and Objective of the Thesis
   The subject of this thesis is the comparison of recent financial crisis. The student compares situation in the USA and China. The choice of this subject is very important because of the growing role of the Chinese financial market in global financial markets. The objective of the thesis is clearly defined and this thesis fulfils the stated objective.

2. Structure of the Thesis
   The master thesis is divided into 5 chapters including introduction and conclusion. The structure of the study is organized well and the content is understandable and logical. In total the structure is in accordance with the thesis assignment.

   The theoretical part of the thesis is focused on the description of the characteristic of the financial crisis and explanation of its development. The second part Impact of Financial Crisis on Macroeconomic of the USA and China is focused on main macroeconomic indicators and their behavior during financial crisis. The author clarifies the impact of the crisis both in the USA and China and explains it. The next chapter Impact of Financial Crisis on Financial Markets of the USA and China deals with the situation in financial markets - student describes it with the help of the selected indices and tries to find the connection between these two markets.

   At the end of this chapter the student presents the most important parts of this comparison and explains the correspondences and differences of these markets.

3. Formal Arrangement
   The formal arrangement of the thesis is good; the author generally can use correct formulations. The references to the bibliography and the pictures and tables are used properly. Sometimes the important parts of the thesis could be better highlighted.

4. Question Proposal
   During the thesis defense I recommend to answer the following question:

   * What do you think about contemporary situation in global financial markets?
5. General Comments

The thesis has a solid theoretical and practical basis. The participant proved knowledge of the problem and the used methods and techniques are appropriate. The formal arrangement of the study is good. In general the thesis meets the demanded requirements. The student tried to work independently and with the effort.

Overall the thesis is on a good level and can be recommended for the defense.
