Report on Bachelor Thesis

*Topic:* Financial Analysis of Selected Company

*Student:* Wenmeng Hu

Bachelor thesis of the student Wenmeng Hu concentrates on traditional topic of financial management – financial analysis of a company. One of the primary objectives is identification of major changes in trends, and relationships and the investigation of the reasons underlying those changes, and so the area of the financial management is very important for company management and its decision – making. The topic of the bachelor thesis fully corresponds with the topics of bachelor thesis at the Department of Finance.

The aim of this thesis is analyzing financial health of the selected company - Hutchinson Whampoa limited.

Bachelor thesis is divided into five main chapters, where first chapter is introduction, last chapter is conclusion, second chapter is theoretical and methodological, third chapter is descriptive and the chapter fourth is the application part.

Second chapter is concentrated on description of the financial analysis methods. First, the author describes the financial statements, then attention is paid to the common-size analysis [vertical and horizontal] and in the last part of the chapter are presented and described selected profitability, liquidity, solvency and activity financial ratios. Third chapter is able to divided into two parts. At first is overwrited Hutchinson Whampoa limited – one of the largest company in the Asia. In the following part is described Hutchinson Whampoa limited by common-size analysis.

The most important part of the bachelor thesis is the chapter fourth. Here, author made the financial analysis [ratios of liquidity, activity, solvency and profitability] of the Hutchinson Whampoa limited over the period of 2008 - 2012. Results of methods are commented and presented in the tables and by graphs.

It is necessary to state, that comments should be better (comments are sometimes reduced on the description input data and results, author should try to explain more reasons for changes). It is also important to note that if a student started working earlier, the resulting level of the thesis could be much higher. Although comment of results is incomplete, it is important to
appreciate that the author tried to work independently. Because the main aim of this thesis has been fulfilled and author also respects the formal guidelines, the bachelor thesis can be recommended to defense.
