SUPERVISOR’S BACHELOR THESIS REVIEW

Title: Comparison of Chinese Stock Market and US Stock Market

Study Program: Economic Policy and Administration

Field of Study: Finance

Student: Fangge Liu

Bachelor thesis of the student Fangge Liu concentrates on the two different stock markets analysis. Capital market is an important part of the modern market economy, the stock market is the most active part. China stock market developing quite fast, US stock market is developed market. That is why the topic for the bachelor thesis can be considered as an appropriate with respect to the level of the study degree and current problems solved within the comparison of Chinese stock market and US stock market.

The goal of the bachelor thesis – as declared in the introduction – is analyzing and comparison of Chinese stock market and the US stock market. As it is apparent from the results, the goal of the bachelor thesis was fulfilled.

Bachelor thesis is in accordance with the bachelor thesis assignment divided into five main chapters, where the chapter fourth – the application part – is the most important part of the bachelor thesis.

Second chapter concentrates primarily on the description of stock market – overview of stock investment analysis methods, nature of stock market, function and participant of stock market, product of stock market. Besides this, author describes the comparison of China and US stock markets, with history background, stock exchanges and main index, the regulation and supervision in chapter three.

The most important part of the bachelor thesis is the chapter fourth.

Here the author makes the comparison of two stock markets based on number of selected stock exchange, market capitalization, products, composite index, transaction - used the statistical regression analysis to analyze and compare the main parameter within two stock markets.

On the basis of procedure and the results it is obvious that the main objective of the bachelor thesis was fulfilled. The author of the thesis proved to be able to solve given financial issue, which is the main assumption for the recommendation of the bachelor thesis for defence.
